

Congratulations!

Thank you for buying STOS 3D! Two years of intense programming development have resulted in this 3D package which will have you creating your very own 3D world and developing 3D images as complex as your imagination will allow. Virtual reality is now at your fingertips!

The success of STOS is reflected by the sheer number of Public Domain and Licenseware discs available – over 100 in the STOS PDL alone! Now with STOS 3D we expect to see even more commercial releases of full price software in addition to those already launched, perhaps you'll be first!

As always, if you have any problems with our products, you can write to our Customer Service department quoting your registration number. We reply to most letters within 24 hours of receiving them. Alternatively, if the query is straightforward, you can ring us on 0625 859333 between 9am and 5pm (International callers should dial +44 625 859333).

I would be most grateful if you would take the time to fill in this registration card – we will learn more about you and your needs, and be able to support you as a registered user.

Happy programming!

Christopher Payne
Managing Director

P.S. Do send us your 3D programs – we'd love to see what you're doing with the package and we promise to return any discs you send.

No stamp
needed if
posted
in the UK

Don't pass on copies of STOS 3D to your friends. Its ease of use belies its complexity – it took two years of programming to create it which requires high levels of investment. If you encourage piracy you risk losing out on further updates to both STOS and STOS 3D.

MANDARIN

Mandarin is the entertainment label for Europress Software Ltd
(previously known as Database Software Ltd).

EUROPRESS
SOFTWARE

Other ST software available from Europress:

STOS Compiler

Turbo charge your STOS programs so they run up to twice as fast as before.

STOS Sprites 600

More than 600 ready made characters for use in your STOS creations.

STOS Maestro

Add dramatic sampled sound to your games and make them bristle with atmosphere using the 50+ sound effects included.

STOS Maestro Plus

Record your own sampled sounds from TV, video or recordings with the Sampling Cartridge.

WIN 10 Public Domain discs of your choice

Fill in this card and post it back to us – you don't even need a stamp, so there's no excuse! Every month we'll hold a special draw, and you could be the lucky winner of 10 fantastic Public Domain discs.
